React codes ⚡

@reactjsofficial

1. Arrow functions

Don't do this ❌

```
function App(){  
  return <Root/>  
}
```

Do this ✅

```
const App = () => {  
  return <Root/>  
}
```

2. Less Brackets

Don't do this ❌

```
const App = (props) => {  
  return <Root { ... props } />  
}
```

Do this ✅

```
const App = props => {  
  return <Root { ... props } />  
}
```

3. Automatic Return

Don't do this ❌

```
const App = props => {  
  return <Root { ... props} />  
}
```

Do this ✅

```
const App = props => {  
  <Root { ... props} />  
}
```

4. Destructure props

Don't do this ❌

```
const App = props => {  
  <div>  
    <h2>{ props.name}</h2>  
    <h3>{ props.title}</h3>  
  </div>  
}
```

Do this ✅

```
const App = ({name, title}) => {  
  <div>  
    <h2>{name}</h2>  
    <h3>{title}</h3>  
  </div>  
}
```

5. Destructure Arrays

Don't do this ❌

```
const App = items => {  
  <ul>  
    {  
      items.map(item => {  
        <li key={item.id}>  
          {item.age}  
        </li>  
      })  
    }  
  </ul>  
}
```

Do this ✅

```
const App = items => {  
  <ul>  
    {  
      items.map((id, age) => {  
        <li key={id}>  
          {age}  
        </li>  
      })  
    }  
  </ul>  
}
```

6. Pass all props

Don't do this ❌

```
const App = (props) => {  
  <div { ... props }>  
    {props.name}  
  </div>  
}
```

Do this ✅

```
const App = ({name, ... rest}) => {  
  <div { ... rest }>{name}</div>  
}
```
